

CERTIFICATE

Concern: Substances of Very High Concern (SVHC) and Restrictions on certain dangerous substances, preparations and articles in view of Regulation 1907/2006/EC (REACH)

18.02.2022

SVHCs are addressed through the authorization system (REACH Title VII). The Substances of Very High Concern are identified through the 'candidate list' (referred to in Article 59 of the authorization system) and gradually they may be included (Article 58) in Annex XIV (Substances subject to authorization) of the REACH regulation.

The Annex XVII of the REACH regulation addresses the restrictions on the manufacture, placing on the market and use of certain dangerous substances, preparations and articles.

We hereby certify that all products manufactured by SELIT Dämmtechnik GmbH within the EU do not contain more than 0,1% (w/w) of any Substance of Very High Concern listed in the ECHA candidate list in accordance with article 33 of the REACH regulation nor any substance restricted by ANNEX XVII of the REACH regulation.

We are at your disposal for any further information you may need.

Yours faithfully
